VOLUME 35

FRIDAY, JULY 9th, 1942

NUMBER 11

Crop Conditions Very Good Locally

Crop conditions at this writing are good. Grain fields present a beautiful sight, and while later than usual, with the supply of moisture and the real hot weather, they are making very rapid growth. Winter wheat is reported to be from four and a half to five feet high and headed out with long heavy heads. If weather remains favorable this should be ready for combining about the last of this month. Spring wheat is beginning to head in some fields and gives promise of a heavy yield of fine grain. Fall rye is high and just commencing to turn. Oats and barley are coming along fast and give promise of a very heavy yield.

Beets are growing fast. They have been retarded some what because of thinning, but fields are cleaned up now and beets are really growing fast. Some of the earlier thinned beets are in process of being hoed now. To date no irrigating has been necessary, but many days of heat like the past ten and water on the fields will be necessary.

The first crop of alfalfa is going into stack, and it was a heavy cutting too. The second crop is growing rapidly now with the hot weather, and this too, will make a more than average crop.

Wednesday night's rain was welcome, as gardens and lawns were quite dry. Surface moisture is getting pretty well depleted, although farther down the soil is nice and damp. Conditions could hardly be better than they are right now and everyone is hoping that they continue so that harvest will not be delayed by inclement and backward weather.

ETHELWYN HOBBS

CBC's shopping expert who is heard every Wednesday afternoon at 3.33 p.m. CDT (2.33 p.m. MDT) over station CBK Watrous (540 Kcs.), giving consumer information to Canadian housewives, hails from the West. She began her career on a Winnipeg newspaper. She later became a copy writer for a large department store, where she learned a great deal about consumer's goods. When the war broke out, she decided her experience and knowledge could be of use to other Canadian women. Getting in touch with the authorities in Ottawa, she obtained figure and facts for shoppers, which she presented with Audrey Hitchenson on the CBC series, "Shop to Save," heard all last winter on the alternative Wednesdays. The series proved so valuable that she is now heard weekly in a new series called wartime shopping.

WEDDING BELLS

SCOVILLE — GIBB

Thursday, July 2nd, at the Alberta Temple, Ellsworth Scoville R.C.N., son of Mrs. Blanche Scoville, was married to Miss Annetta, daughter of Mr. and Mrs. M. H. Gibb of Magrath with Pres. E. J. Wood officiating. Friends and relatives of both young people were present to witness the ceremony and to wish them joy and happiness in their married life. Ellsworth had to leave on the train from Lethbridge that night to return to his station on the Pacific Coast.

WOOLLEY — THOMAS

Roy A., son of Mr. and Mrs. L. C. Woolley, and Martha, daughter of Mrs. Harriet C. Thomas of Cardston were married at the Alberta Temple on Wednesday, July 8th, with Pres. E. J. Wood officiating. Relatives and friends of both young people witnessed the ceremony and extended congratulations for their happiness and success after the wedding.

A reception was held in the Pioneer home at Cardston, prepared and served by friends of Miss Thomas, both here and in Cardston, and after the reception the young couple were part of a group that will spend a few days in Waterton Park. They received plenty of rice, confetti and old shoes as the car started for Waterton, with the groom perched on the engine cover. Miss Thomas has been a member of the Public School staff for a couple of years past, and Roy is on the permanent staff at the Canadian Sugar Factories Ltd.

With their many friends we join in wishing both these young couple a long life of happiness and joy together.

ALLRED — WOOD

Logan—Miss Odessa Allred, daughter of Mr. and Mrs. J. U. Allred, was married Thursday to Merrill J. Wood, son of Mr. and Mrs. Joseph H. Wood of Salt Lake City. The ceremony performed that morning in the Salt Lake L. D. S. temple, was followed by a family breakfast at the home of Mr. and Mrs. Reed Fairbanks, 1537 Princeton avenue, brother-in-law and sister of the groom.

The bride is a former Raymond girl and has spent the past year in Washington, D.C., and the groom is a graduate of past year in Washington, D.C., Northwestern Reserve University and served a two year's mission in the Southern States for the L.D.S. Church.

The young couple are honeymooning in southern Utah and Colorado. — Salt Lake Tribune.

Geo. Ralph and Kano Sugimoto were in the woods west of Pincher Creek on Tuesday for a load of slabs.

Irving R. Hall of Portland Oregon, is visiting here with friends and relatives. Irving says there are more jobs than men on the Pacific coast right now.

If you haven't been under a straw hat lately you surely haven't been in style. Even for walking the streets a straw hat has been just the thing.

Canada Now 75 Years Young

(Crowded out of last issue)

Along with the Stampede, Army Week and what not, our nation on Wednesday observed its 75th anniversary of Confederation, finding itself a stronger, wiser and firmer nation on this birthday than ever before. Despite the fact that we are at war, and that everyone feels its effect, it has brought out the best of our lovely Canada and made apower amongst the democracies of the world who are now engaged in a life and death struggle with the forces of dictatorship.

It is a far cry indeed from the occasion 75 years ago when the four provinces of Ontario and Quebec, which until then had been known as Upper and Lower Canada, and New Brunswick and Nova Scotia formed the first Dominion of Canada. The three prairie provinces then still belonged to the Indians and the mountain province of British Columbia was too remote to even be considered. Racial discord between the English and French in Eastern Canada had been the big stickler prior to Confederation, but when Sir John A. Macdonald and his colleagues agreed on Confederation, platform was laid which gave racial and religious freedom to all, and since that day Canada's march has been forward and it has been a rapid one. British Columbia was added, when the transcontinental railway line was built, and the shining rails stretched across hundreds of miles of virgin prairie, to the yell of the Indian and the howl of the coyote, then the Prairie Provinces, since provided to be the granary of the nation stretching from sea to sea, a border line 3,000 miles long between two nations where the good neighbor policy has always existed that is not equalled between any two nations on the face of the earth. Both stronger because of the aid they get from each other, Canada and the United States are truly the "hope of the world." A boundary with out a foot or a gun has been the wonder of the world in the past, and today the ties of friendship are even stronger than ever before.

Canadians are justly proud of the history of their nation. Little but a child, even now, so far as history goes, Canada has been a very helpful child ever since her birth. Away back in 1899 in the Boer War, besides her help in men, she was able to contribute to the needs of the Motherland and her armies from her crops and natural resources. In the 1st World War Canada's armed forces proved the spearhead of many a successful attack, and Canadians and Americans side by side made a combination of fighters that were not excelled by any. Today, besides infantry, armored divisions, mobile units and all the rest of the land forces, and a good navy, Canada is contributing much to the air program of the world. Natural conditions made her the logical location for the Empire Air Training School, and Canadians, especially prairie Canadians, accustomed to seeing long distance have eyesight that is a real asset in the air service and the envy of the boys whose eyes have not been accustomed to gazing over vast stretches of prairie and are therefore not as good at distance

and focusing as are the optics of western Canada's native son.

Then in the matter of natural resources and manufacture Canada is a vast reservoir of wealth, and today, because of these things, she is fast becoming a mighty arsenal of war implements and supplies as her factories and man power are mobilized for work. Fields have been turned into training schools and factories almost over night. Existing machine shops have been drafted in war production across her entire breadth, and today, her war effort is a tribute to the citizenship of the nation, who accustomed to unexpected happenings have merely hitched up their trousers and sailed in, and the results, well take a few statistics and see if every Canadian might not well be proud of our fine country.

So, as we celebrate our birthday, with our hundreds of thousands of men and women in the service, and our women doing the work in home, office, field, and factory, formerly done by men, let us be truly thankful that we live in a land where in meeting the challenge of every day life, we unconsciously develop that something that makes of Canadians super men and women, people whose leadership, initiative and ingenuity are acknowledged and appreciated throughout the world, and who on this 75th birthday and in the midst of war and destruction, are writing history in undying letters that our offspring may be just as proud of us as we are of the men and women who conquered the forces of nature and gave us this Canada. "God bless Canada, Land that I love; Stand beside her and guard, with a light and a love from above."

NEWS NOTES

Mr. and Mrs. Gray Kirkham of Edmonton are visiting with relatives and friends here.

Dr. and Mrs. Reed Kirkham and family are visiting with relatives and friends here for a few weeks.

The cool morning Monday was quite a relief from the heat which held sway from Tuesday throughout the remainder of the past week.

The electric storm Tuesday night spoiled the sleep of everyone. The vivid lightning with peals of thunder that sounded like they were right on the housetops made sleep impossible for a couple of hours, and the nervous ones were kept awake longer than that.

Harry Johnson fell from his tank Saturday just as he climbed atop of it and broke his collar bone. He is at home with a board across his back to keep his shoulder in place and is doing as well as can be expected for such an accident to one of his age.

Fireside of the 2nd Ward M Men and Gleaners was held Sunday night at the L.L. Palmer home. Speakers were Elders Eldon Garner, who just returned from the Mission Field, and LeRoy Anderson and Robert Walker just leaving, the former to Eastern Canada and the latter to the West Canadian Mission.

New Sugar Coupons Not To Be Detached Prior To Set Date

SUGGESTION TO WOMEN

Here is a suggestion in answer to the perennial question, "How are we going to raise money for the Club?" How about showing a film, instead of having a tea?

The National Film Board at Ottawa has films which can be obtained free of charge for the use of women's clubs. Most of the pictures were taken in England and have to do with civil defense and women in war work. They can be obtained by writing to Miss Anne Macdonnell, National Film Board, Ottawa.

NEWS NOTES

Billy Mehew and Wayne Phillips are home on leave for a few days. They both look fine.

Born to Mr. and Mrs. Ronda Dahl on Dominion Day, July 1st, a baby girl. Mother and child are doing fine.

Manager and Mrs. J. R. Wells of the Bank of Montreal are vacationing at present. Mr. Gilmore is manager during Mr. Wells absence.

Geo. Thompson has been made carpenter and building supervisor at the local Mental Hospital. We congratulate George on his appointment.

Mr. and Mrs. Fritz Gehmlich of Picture Butte were Raymond visitors over the week end the guests of Mr. and Mrs. Karl Gehmlich.

Mr. and Mrs. R.W. Tollestrup of Melfort, Sask., have been visiting here for the past week with friends and relatives.

Mrs. Wood, mother of President T. Geo. Wood, and a niece are visitors from Utah at the home of Mr. and Mrs. T. Geo. Wood.

Dr. and Mrs. J. S. Madill are vacationing at Waterton for two weeks having left July 1st. During the Doctor's absence Dr. Hunt of Lethbridge is taking care of his practice.

Mrs. Marcel Aneca, (nee Holsby Organ), is visiting here with her parents Mr. and Mrs. Elmer Organ. Marcel recently graduated with the highest honors from the Arm. Trade School in Medicine Hat, and has now enlisted in the service.

Mr. and Mrs. Knowlton Kearl are the proud parents of a baby girl born in the Cardston Hospital on July 6th. Mother and babe are doing nicely. Knowlton is accountant at the local Treasury Branch.

Cardston Rodeo is on next Wednesday and Thursday, and it will draw large crowds if the weather is at all favorable. Hundreds of copies of a colorprint letter, put out by the Cardston News has been mailed out advising the big show.

When Taber districts voted on the Municipal Hospital scheme on June 27th, there was an overwhelming "Yes" vote the totals being 993 for the scheme, only 30 against and 8 rejected ballots. This should give local people a lead when our voting time comes 1031 votes were cast.

FIVE COUPONS ON EACH CARD; COUPON IS GOOD FOR ONE POUND OF SUGAR

Now that sugar rationing coupons have been issued to the majority of citizens in the district, a warning is given that coupons are not to be detached before the set date.

A card has been issued for each individual member of the family which contains five coupons, numbered from one to five. Number 1 must not be detached or used before July 1, coupon number 2 must not be detached or used before Monday, July 13, and so on, counting two weeks span between each purchase. Each coupon is good for one pound of sugar.

At the top of the card are 5 coupons arranged from A to E but these must not be used until instructions have been issued by the government. Before the end of the ten week period, a ration book good for six months will probably be issued.

Coupons are not to be detached at home and taken to the grocer. The coupon must be detached from the card in front of the dealer from whom the sugar is being purchased.

Instructions will be issued shortly covering extra sugar allowances which will be made where the householder plans canning of fruit or the making of jam.—Dumheller Mail.

WILL POWDER EGGS AT CALGARY PLANT

Further relief for the egg storage situation in south and central Alberta will be provided in the near future with the completion of egg powdering plants at Calgary and Edmonton, which are expected to be able to handle all the provincial supplies of eggs moving for shipment to Britain.

In Calgary the plant being erected by Burns & Co. will be in operation by the middle of the month with the plant at Edmonton approaching completion.

The Calgary plant will handle supplies from Lethbridge and the south, as well as east and a certain distance north. The plant will have a capacity of 210,000 eggs a day and its cost is estimated at \$46,000.—Market Examiner.

Dr. and Mrs. F. M. Hall were in Calgary the first part of the week at the Stampede.

Mr. and Mrs. A. W. Kirkham are home again for the summer and Bert is reported to be feeling better than when he left. We hope he is on his way to complete recovery.

NEW COFFEE SHOP

Vic Frawley has rented the premises recently occupied by Jos. Landvoys, and is opening up a new lunch counter and refreshment stand. The new place will be known as "Vic's Coffee Shop" and will be operated in conjunction with the Sugar Bowl.

The new store is being freshly painted inside and out, and we understand that a new and modern front is to be added to enhance its appearance. Vic extends a hearty invitation to the public to try the service at the new stand. Read his ad. elsewhere in this issue.

LET'S DO SOMETHING

This spring and every spring basements and cellars, streets and roads are flooded with waste water. Septic tanks and cess pools fill up and overflow making a nuisance or losing their value, and we all talk about what we are going to do. Then the sun shines, the ground dries up, the mud disappears; we put away our rubbers and also our determination to improve these conditions. A town is the reflection of the spirit of the people who live in it, and to judge by ours in a wet spell, we are all pretty water logged.

We have had a plan under study for nearly a year for improvement in our sidewalks and roads in the business part of town. Drainage has been a question for forty years, ever since the town was started and nothing has been done yet. If we can't get all we would like in a drainage line, in one year, let's start and take care of a few blocks. Run a nine or ten inch drain tile line the length of Broadway NOW and see what a difference it makes to Broadway when the late summer and early fall storms come. It can be done, and this start will pave the way for more such drainage and for a program of sidewalk and road improvement in the business section of the Town.

We almost blush when people have to get out in mud to get into stores and offices. It shouldn't & needn't be. A long term program of improvement could be introduced which would solve these questions with out additional expense to anyone and the Town would really be going places while these improvements were taking place. The Arkansas traveller couldn't fix his roof while it rained and when it didn't rain he didn't need to. Our drainage problem and street building is a parallel of that. When it's muddy we can't fix it, when it's dry we don't need to, and we don't.

We should shake ourselves and start out to make our Town dry so that basements are not flooded with surface water every time we have a shower and so that our streets are not bogging down all the time; and then embark on a program of permanent sidewalk and street building so we won't have traps around like the sidewalk from King Motors and west past the Opera House. LET'S DO SOMETHING.

Buy War Savings Certificates.

Strawberries from local gardens were on the market this week at \$3.25 per case and quite a lot of preserving was being done. The prolonged cool weather ruined the usual heavy strawberry pick in B. C. and the supply is expected to be rather limited.

At Rotary meeting Monday the Treasurer E. E. Jensen gave a financial report of the Club, and President W. L. Jones spoke on plans for the coming year's work. Miss Arlene Hudson, an honor student in the recent Toronto Conservatory exams rendered two fine piano selections which were much enjoyed.

A tourist stopped in front of a little country store, dumfounded at the sight of an enormous display of salt piled on the premises. Stalk after stalk, boxes, barrels and bags. Tons of salt inside the store and out. "You must sell a lot of salt," exclaimed the tourist. "No, I don't sell," replied the storekeeper. "but you shoulda seen the guy that came here last week. He could really sell salt."

NEWS NOTES

Bob McMullin has enlisted in Edmonton as a bandsman.

Bud Strong and J. Elgrad of Raymond have recently enlisted in the Army Service Corps in the welding division.

Jos. Lendvay, who purchased the business of Jos. Kovrig, has sold his stock to Vic's Coffee Shop and Joe and family have moved to B. C.

Miss Shirley Taylor is at home for the holidays after her graduation from the B.V.U. in Provo, Utah.

Lee Brewerton and Roi Stone were amongst local golfers who attended the Cardston Tournament on Sunday. They report a very fine tournament and we are told that Lee won several of the prizes offered.

Haying has been the order of the day the past ten days and most of the first cutting of alfalfa is now in stack. Little, if any, is on the market, most growers holding until they are fully decided on their feeder program for the coming winter.

Marcel Alphonse Aneca son of Mr. and Mrs. R. Aneca of Raymond, has been enlisted in the Royal Canadian Air Force at the Calgary Recruiting Centre as an Air Frame Mechanic. AC2 Aneca will commence his Air Force training at No. 1 Manning Depot, Toronto. Previous to his enlistment Aircraftman Aneca had been working here and attending school in Medicine Hat.

WHAT TO DO WITH HITLER

(From the Claresholm Press)

I'm a full-fledged Yankee from away out West Where the rattlesnakes rattle and the buzzards build their nest

I'm going to join the army and head straight for Japan We'll show those slant-eyed sucker what it means to be a man.

Then we'll go right up to Garm any and get old Hitler, too. We'll make him pay allegiance to our own red, white & blue We'll break into his cellar and drink up all his beer, Throw him in the gutter and spit right in his ear. Fill his mouth with muscilage and put molasses in his hair. Get some sticky fly paper and put all over his chair.

We'll put snakes in his parlor and cactus in his bed, Mix up a mustard plaster and put it on his head. Give him a bath in sheep dip so strong 'twill burn the skin. Put on a pair of hobnails and then kick him in the shins. We'll take him back to Russia where it's forty-two below. With nothing but a straw hat on and chase him through the snow.

We'll fill his living quarters with chiggers, bugs and ants, Put centipedes in his shoes and and put scorpions in his pants.

And just so he might associate with some of his own level, We'll put some skunks in his palace and also invite the devil.

But I don't think we'll find it in us to insult the lovely beast. So we'll kill the little fellow and on it make him feast.

We'll chase him all over Europe and let him hear the cry Of the millions of widows and orphans that he has left to die.

We'll run him up and down the land till he's almost in a trance To the tune of Yankee Doodle we'll make the beggar dance.

—Dellis Spencer in the Payson (Utah) Chronicle

Do you want to know a good cure for love Sorry, too late, I'm already married.

SHOULD BE FEWER ACCIDENTS ON FARM

When someone on the farm meets with an accident these days it means more than personal disaster to the individual. It means another man is taken out of the production line of agriculture and there just aren't any men to spare in the industry that is one of the most vital to victory for the United Nations.

To help prevent loss of man power through accidents, officials of the Dominion Department of Agriculture suggest

SAVE SCRAP METALS, RAGS, PAPER, BONES **WIN THIS WAR**

Men, Women Over 40 Feel Weak, Worn, Old?

Want Normal Pep, Vim, Vitality? Does weak, rundown, exhausted condition make you feel tired out, old? Try Oxy-Gen. Contains general tonic, stimulants, often needed after 30 or 40. Tasty Pastry **Make Lunch Time Welcome with Our Fresh Cookies** **The Home Bakery** **If You Like Our Service, Tell Others** **If You Don't Like It, Tell Us**

that a farmer spend a few minutes occasionally checking on the cause of farm accidents, and how such accidents can be avoided.

It is an unpleasant fact that the number of accidents among workers in agriculture is higher than in any other industry. Many of them could be easily avoided if care were taken to close the hay loft trap door, to fix the broken rung in a ladder and so on. With the labour shortage acute, the difficulties connected with getting replacements for farm machinery, the demand for increased production of food products, there is more need than ever for practicing Safety First. Reducing the accident toll will be a definite help in the war effort on the farm front.

THERE ARE 10 POINTS ON QUALITY EGGS

Laying hens bring the highest returns when fed to produce high quality eggs and the eggs are so handled that the quality is retained. Here are ten important points relating to the subject:—

1. Keep hen houses and nests clean and bedded with clean dry straw;
2. See that the hens are free from lice and that there are no mites in the houses;
3. Do not let the hens run in muddy yards to track dirt into the nests and soil the eggs;
4. Keep mash hoppers filled with either a good commercial mash or ground home-grown grains mixed with a good commercial concentrate;
5. Give a light feed of scratch grain in the morning and all that the hens are able to eat at night;
6. See that water dishes are kept filled with clean fresh water;
7. Keep the hens supplied with oyster shell and grit;
8. Gather the eggs two or three times a day;
9. Cool the eggs as quickly as possible. Place them in a cool room where the temperature is below 68 degrees Fahrenheit and the air is not too dry;
10. Market the eggs as often as possible. The sooner they reach the grading station, the better the grade will be.

YOUR SCRAP METAL URGENTLY NEEDED!

This New Method makes Scrap Metal Collection easy for you.

More scrap steel and iron is urgently needed for more ships, tanks, planes, guns and munitions. You are asked to do your part by turning in every available ounce of scrap metal from your farm.

In order to facilitate the systematic collection of scrap iron and steel in the three Prairie Provinces, the Wartime Salvage Limited, a Government Company, has completed arrangements with the following Western Canadian Elevators for collection and purchase of scrap iron and steel:

Alberta Wheat Pool.

Saskatchewan Pool Elevators.

Manitoba Pool Elevators Ltd.

United Grain Growers Limited.

North-West Line Elevator Association.

These Companies handle and purchase this material on behalf of the Government without cost to the Government, and without profit to themselves. Any monies received over and above the actual cost of handling will be donated to War Charities.

An Agent of one of the above named Elevator Companies has been appointed in your district as an official buyer on behalf of the Wartime Salvage Limited. The price to be paid by these Agents has been fixed by the Department of Munitions & Supply at \$7.00 per net ton at the elevator, for all forms of scrap iron and steel excluding: (a) Sheet tin of any kind; (b) Automobile bodies and fenders; (c) Stovepipe; and (d) Wooden attachments.

This price applies at any designated point in the Prairie Provinces.

Your contribution to the war effort and to war charities is simplified by this arrangement and it will be more effective inasmuch as you now can take your scrap metal to the Elevator designated in your district and obtain a receipt for it from the Agent.

Should you desire to donate your scrap to the war effort, then such receipt voucher can be endorsed by you, payable to the Voluntary Salvage Committee in your community. The Voluntary Salvage Committee will use such money for war charitable purposes.

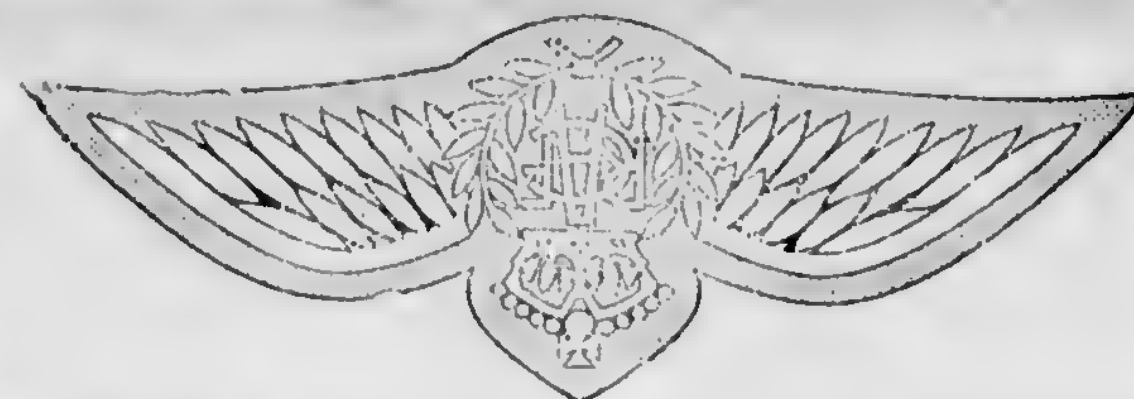

Your contribution of scrap iron and steel is urgently needed NOW. Dig out every available ounce of scrap on your farm and take it to the Elevator Agent nearest you without delay. Canadian war industry needs it badly.

Issued under authority of:

Department of Munitions and Supply

Department of National War Services

Wartime Salvage Limited

NEWS NOTES

L.D. King left for Calgary on
Sunday to attend the Exhibition
and Stampede.

Miss Virginia Zabriskie, who
has been a nurse in training
in Calgary is home for the
summer holidays.

Steve Sera is in the Galt Hos-
pital, Lethbridge, suffering from
injuries sustained when he was
thrown from a horse on Tues-
day. His injuries are fortunately
not serious.

The six cent per lb. bonus on
butter fat is now in effect and
cream shippers receive a nice
little Santa Claus on every one
of their cream cheques. It means
about 13 p.c. additional on Special
grade cream.

Announcement

MAIN ST. WILL BE OPEN
THE FIRST OF THE WEEK
AFTER REDECORATING
AND ALTERATIONS ARE
COMPLETED.

AN UP-TO-DATE PLACE
FOR REFRESHMENTS
AND LUNCHES. THE
PUBLIC IS ASSURED OF
THE BEST AT VICS SUG-
AR BOWL OR COFFEE
SHOP. EVERYONE IN-
VITED TO GIVE US A
TRIAL.

BOTH PLACES ARE SOL-
ELY OPERATED BY VIC.

The local troop of Air Cadets
are leaving at 2 p.m. tomorrow
for a week's camp in Medicine
Hat. They will travel by C.P.R.

Alex Harper of the Reming-
ton-Rand, Lethbridge was a Ray-
mond visitor Thursday on his
way to Cardston.

The School Board is calling
for tenders for the cleaning of
the Public and High School build-
ings for the next school term.
Read the ad. in this issue.

Hand us your news, or use the
Phone. Local news is what makes
the local paper. The items of
you and your family are interest-
ing to your neighbors. Help
us get the news.

Uncle Hyrum Kimball observ-
ed his 89th birthday on Monday
July 6th, and celebrated by his
daily trip up town and back. He
is still hale and hearty for a
man as old as he is and we wish
him many happy returns of the
day.

The swimming pool was filled
on Monday and since then has
been the busiest place in town.
Prior to its being filled swimm-
ers were dipping in the nine
mile, at the flume and wherever
there was water enough to swim
in to chase away the heat. Row-
an Stutz of the School Staff is in
charge of the Pool.
